

#### FOUNDER'S HALL FEATURES AND SERVICES FOR STUDENTS

- > Multimedia Theater
- > Wireless Internet
- > Exercise Room
- > Community Kitchen
- > Think Tanks
- > Mail Room
- > Laundry Room
- > Game Room

#### RESIDENT ASSISTANTS

Resident Assistants (RAs) are peer mentors who live in Founder's Hall in each wing to help build an inclusive community. RAs build community by creating relationships, building rapport and mediating any conflicts between students. RAs are available to provide personal and academic support, to plan and implement resident activities, to administer and clarify University policies, and to encourage student responsibility and accountability.

#### TECH TREK

It is a good idea to attend Tech Trek Discovery Expo, our open house. This is where students unite to meet faculty, alumni and potential roommates. For more information on each event and to see upcoming dates or to register, visit [www.uat.edu/techtrek](http://www.uat.edu/techtrek).

RESIDENCE LIFE

Founder's Hall

Community Gym

Student Life

Community Kitchen

Student Room

At University of Advancing Technology (UAT), residence life is a unique aspect of the collegiate experience that fosters students' emotional, intellectual and social development. The department of residence life focuses on each student's growth as an individual within the UAT community as well as their role as a positive force in society. The residence life staff accomplishes this by creating and nurturing connections and by promoting fun and enlightening activities for students.

The UAT residential life program is based on the philosophy of supporting our residents through the transition from dependence to independence.

Students live on campus during a formative stage in their

development, requiring them to live and communicate effectively with people outside their normal family environment, learn to take personal responsibility, and act independently, often for the first time. UAT aims to ensure that this transition is supported and successful and that risk-taking behavior is managed and minimized.

#### UAT ROOM AND BOARD COSTS

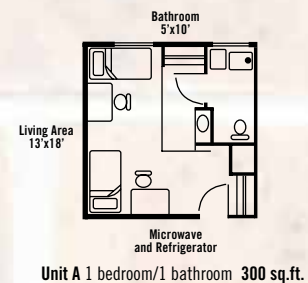

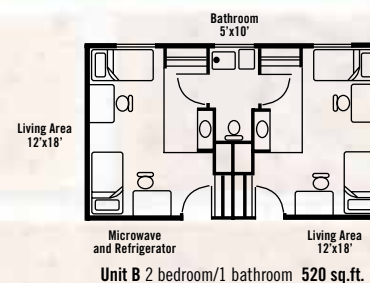

Residence life community costs are based on the type of room a student chooses and the semester a student begins classes. For current room and board costs, please visit [www.uat.edu/tuition](http://www.uat.edu/tuition).

#### PARKING

Parking is available on campus for residents of Founder's Hall. Students may purchase parking passes at the beginning of each semester.

#### CAMPUS AND COMMUNITY SAFETY

UAT is a uniquely safe and secure community in a larger urban setting. In order to maintain campus and community

safety, the following principles are in place:

- > All students and staff members are responsible for identifying safety issues and reporting them to the appropriate staff member or authorities.
- > The University maintains a timely warning and communications system for alerts.
- > Each member of the UAT community is empowered to

take appropriate steps to maximize safety for themselves and other members of the community.

The three-story building, with accommodations for more than 250 students and resident staff, is not only a model of 21st-century student comfort and convenience, but is

also geeked-out. Students have never been more connected to the world or each other. Each floor has its own Resident Assistant (RA). The Resident Hall Director lives on-site.

#### WHAT ABOUT MEALS?

Students residing on campus have access to kitchens for food preparation. Just a few feet away from Founder's Hall is the campus café, which offers students a wide variety of hot meals, salads, soups, burgers, sandwiches, beverages, breakfast items and more, seven days a week. Many meal plan options for the café are available. Several grocery stores and restaurants are within walking distance of campus. To learn more about meal plan options, visit [www.uat.edu/uat-café](http://www.uat.edu/uat-café).
