

UAT

THE UNVARNISHED EXPERIENCE

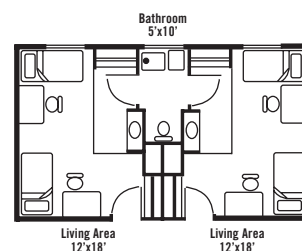

It's a good idea to discover more about campus life and attend UATx, our open house. This is where students unite to meet faculty, alumni and potential roommates. For more information on each event and to see upcoming dates and register, visit www.uat.edu/uatx.

If you'd like to schedule a private guided tour (in-person or virtual) first to get a feel for the campus, visit www.uat.edu/see-technology-college.

Founder's Hall is equipped with everything you need for life on your own! Our residence hall is not only a model of comfort and convenience, but is also loaded with technology and common spaces to support your study habits and social life.

Unit A
1 Bedroom/1 Bathroom 300 sq. ft.

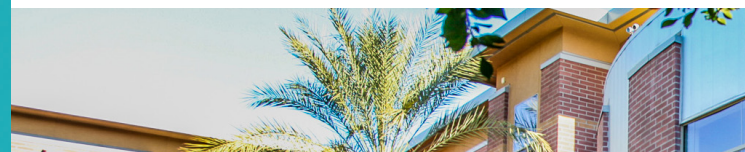

Unit B
2 Bedroom/1 Bathroom 520 sq. ft.

FOUNDER'S HALL FEATURES & STUDENT SERVICES

- > Multimedia Theater
- > Wireless Internet
- > Exercise Room
- > Community Kitchen
- > Think Tanks
- > Mail Room
- > Laundry Room
- > Video Game Room

RESIDENT ASSISTANTS

Resident Assistants (RAs) are peer mentors who live in each wing of Founder's Hall to help build an inclusive community. RAs form a community by creating relationships, building rapport and mediating any conflicts between students. RAs are available to provide personal and academic support, to plan and implement resident activities, to administer and clarify University policies, and to encourage student responsibility and accountability.

RESIDENCE LIFE

At University of Advancing Technology (UAT), residence life is a unique aspect of the collegiate experience that fosters students' emotional, intellectual and social development. Combined with UAT's technology-infused campus, living in Founder's Hall provides students the full breadth of everything UAT has to offer. Within Founder's Hall, the residence life staff creates and nurtures connections through activities, clubs and enlightening programming. The UAT residential life program supports our residents through the transition from dependence to independence and achieving their role as a positive force in society.

ROOM & BOARD COSTS

UAT's residence life community costs are based on the type of room a student chooses and the semester a student begins classes. For current room and board costs, please visit www.uat.edu/tuition.

PARKING

Parking is available on campus for residents of Founder's Hall. Students may purchase parking passes at the beginning of each semester.

MEAL PLANS & CAMPUS DINING

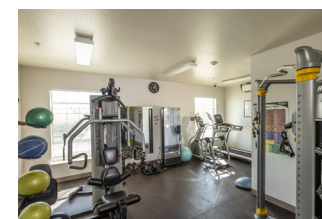

In addition to the community kitchen in Founder's Hall, just a few feet across the courtyard is the on-site campus restaurant, which offers students a variety of hot meals, salads, burgers, sandwiches, breakfast and more seven days a week! The restaurant also offers late-night meals for your busiest nights, so you can power through your projects and jams. To learn more about meal plan options, visit www.uat.edu/uat-cafe.

CAMPUS AND COMMUNITY SAFETY

UAT is a uniquely safe and secure community in a larger urban setting. In order to maintain campus and community safety, the following principles are in place:

- > All students and staff members are responsible for identifying safety issues and reporting them to the appropriate staff member or the authorities.
- > The University maintains a timely warning and communications system for alerts.
- > Each member of the UAT community is empowered to take appropriate steps to maximize safety for themselves and other members of the community.

For more information on student safety and UAT's annual safety reports, visit www.uat.edu/campus-safety.

Community Gym

CLUBS

UAT strongly supports the continuation of a rich student life experience through student clubs and organizations. These clubs and organizations enhance UAT's technology-infused and friendly environment. UAT supports a multitude of clubs and campus activities including (but definitely not limited to) Robotics, Anime, Japanese, Coding, Gardening and Nerf Wars.

Overseeing the student clubs is Geek RHO, a collective voice for the student body formed to set traditions within the University. Geek RHO performs important roles in encouraging self-directed student life organizations, coordinating community service activities and providing a venue for feedback between students and staff. Students are encouraged to participate in Geek RHO's weekly open meetings. Students, alumni and members of the technology industry meet regularly at the University's campus to deliberate and educate themselves on the latest trends.

To learn more about the clubs you can join (or start!) check out www.uat.edu/clubs.

EVENTS

UAT regularly hosts technology events, games, competitions and app and game jams on-site and virtually for students. Students can also propose student life events through Geek RHO! So, while we're sure we've got something that appeals to you, you can always submit your own ideas. To see UAT's upcoming events, visit www.uat.edu/events.
